eBook ISBN: 9781998963621

eBook Price: R539.00

(Price valid until 30 June 2025, incl. 15% South African VAT and excl. courier delivery.)

About this publication

To develop young children's full potential, quality early childhood education has been found to be one of the greatest resources available. *Early Childhood Professional Development: An African Perspective* aims to explore ways to encourage the professionalisation of practitioners in the ECD sector to provide opportunities for education improvement and positive change. The book's value shifts from merely identifying and describing problems to providing creative real-life examples that could lead to action and mobilise existing skills and knowledge in rural and disadvantaged contexts.

Contents

PART 1: THE THEORETICAL FOUNDATIONS OF EARLY CHILDHOOD DEVELOPMENT

- Chapter 1 - Early childhood education in South Africa: A historical overview
- Chapter 2 - African theoretical perspectives: Ubuntu philosophy for early childhood education
